aromas

by botanicandfruits

[www.botanicandfruits.com](http://www.botanicandfruits.com)

The ideal complement for mixology.

G1N7ONIX is a careful selection of dehydrated fruits and excellent botanicals mixed properly to create exquisite aromas for mixed drinks.

Packed in mono dose blisters, which provide a perfect blend, always keeping the same quality, aroma and taste in each elaboration.

This document proposes some suitable gins and vodka for each aroma, at the same time that invites you to participate and savour all the combinations

# love

Fruit with character, seductive and penetrating.  
Fresh and intense aroma.

strawberry

The most mediterranean aroma. Ideal for herbal gins and also for gins distilled with cucumber.

green apple

+
